REPI

READINESS AND ENVIRONMENTAL
PROTECTION INTEGRATION PROGRAM

Building Resilience and Preserving Missions Through the DoD REPI Program

Sustaining DoD's Mission

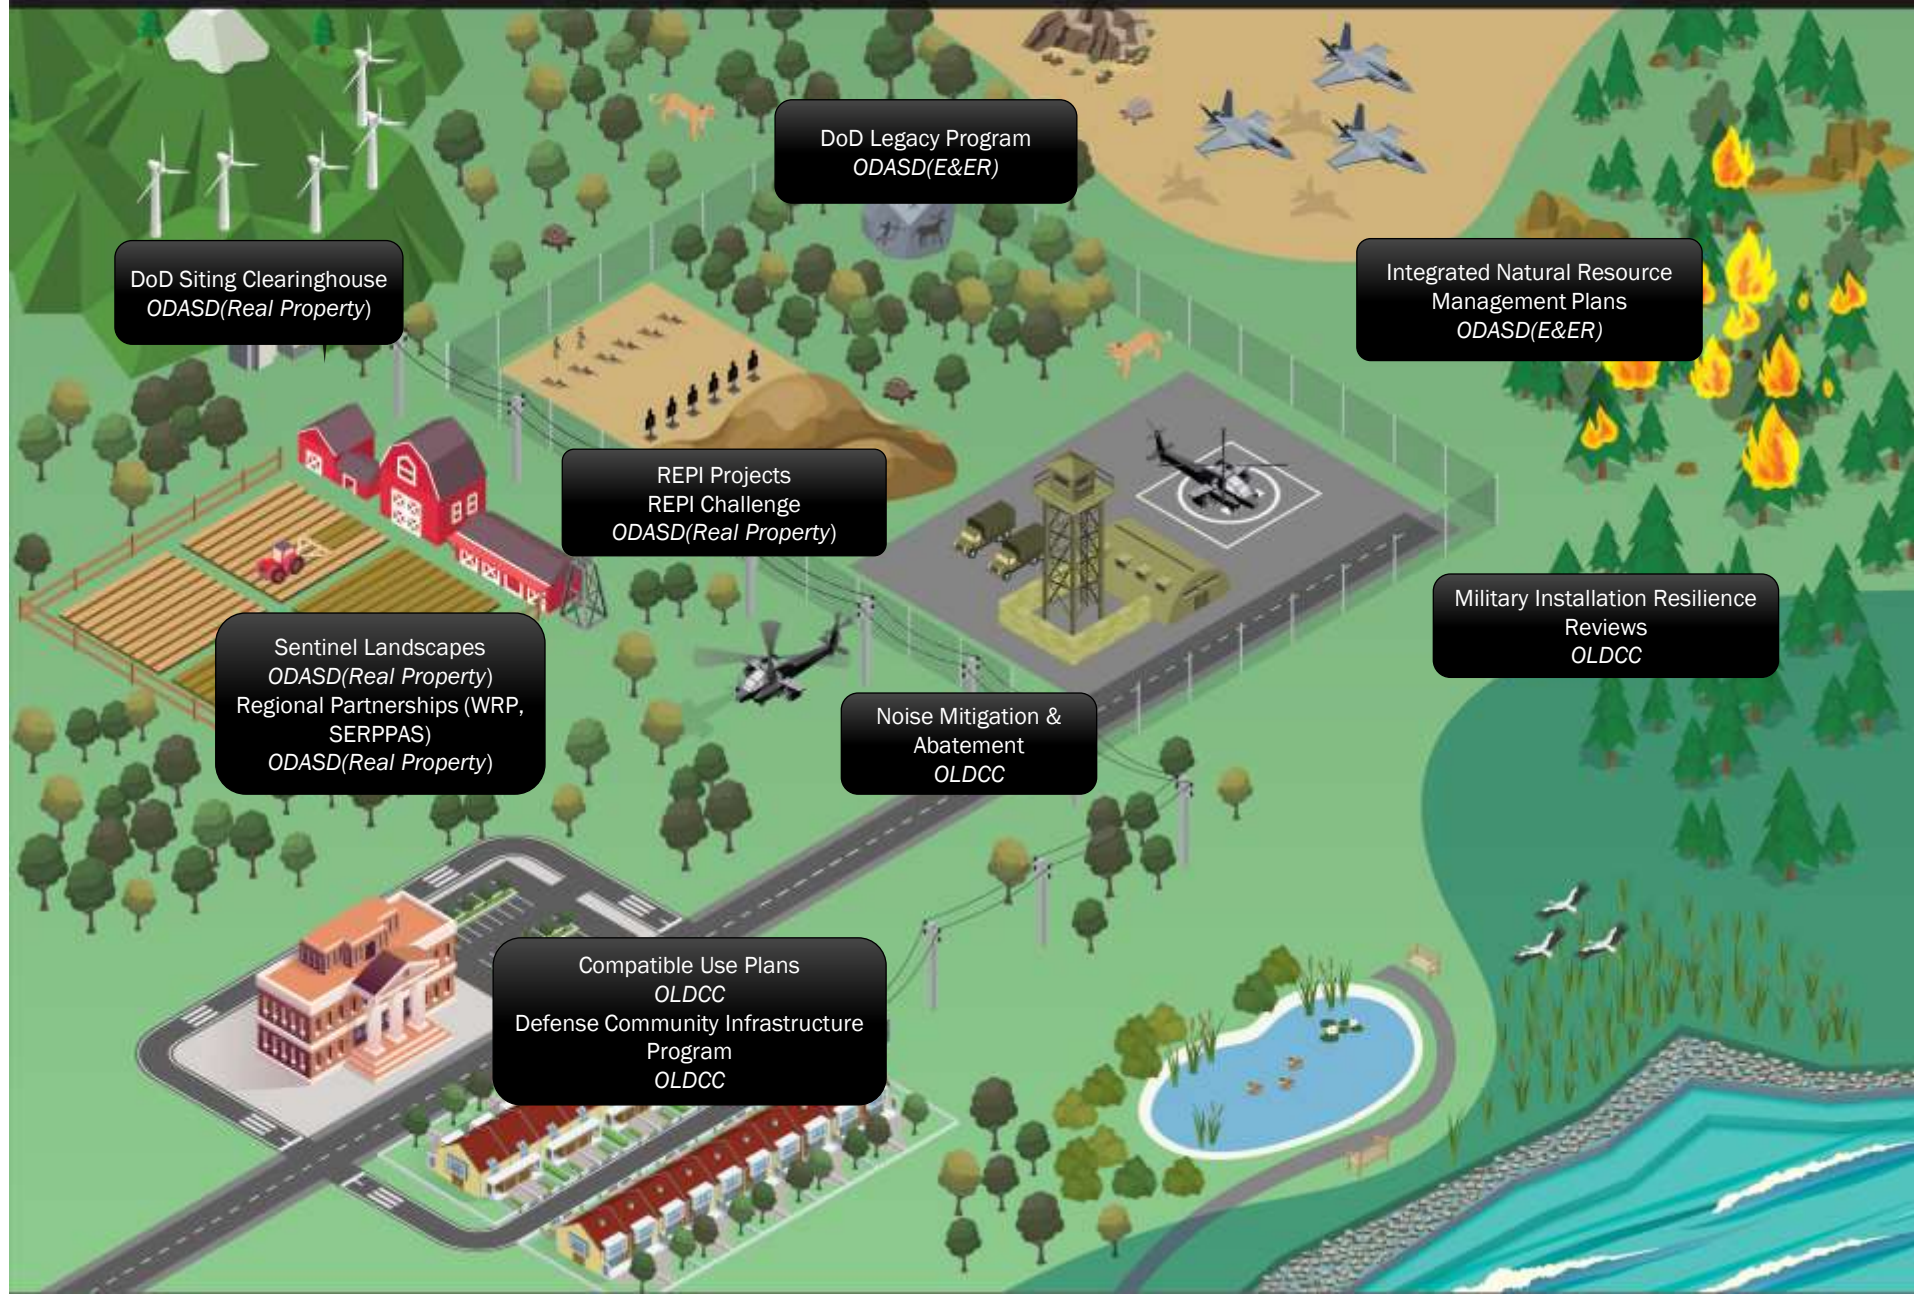

Most DoD installations and ranges were once located in open, undeveloped landscapes that were compatible with our testing, training, and operational missions

Sustaining DoD's Mission — Sustainment Programs and Tools

An installation or partner organization can leverage several programs and tools to best address the identified threats

REPI Project Locations

DoD has leveraged \$1 billion with over \$975 million in non-Department partner contributions to protect 757K acres of land, safeguarding vital test, training, and operational assets and capabilities in 115 locations in 35 states and territories.

REPI Budget

Fiscal Year 2022 Budget

- The official President’s Fiscal Year 2022 budget request for REPI is \$150 million.

2022 REPI Challenge

- Up to \$40 million is available for the 2022 REPI Challenge application cycle; \$25 million of that total may be allocated toward climate resilient projects
- Any state government, political subdivision of a state, or private entity whose organizational purpose or goal is conservation, restoration or preservation of land and natural resources are welcome to apply

Fort Huachuca received FY20 REPI Challenge funding to protect over 2,000 acres of working ranches within the Fort Huachuca Sentinel Landscape. Portions of this land would contribute to natural resources management projects.

Getting Involved

REPI Program

- www.repi.mil

Sentinel Landscapes Partnership

- www.sentinellandscapes.org

DoD Funds as Match Authority

- REPI funds can be used to satisfy the cost sharing requirement of ANY resilience or conservation program of ANY federal agency

2022 REPI Challenge Request for Proposals

- Highly evaluated proposals will leverage other federal, state, and non-profit resilience programs that help build capacity and implement natural infrastructure solutions

A Nebraska Army National Guardsman descends from a helicopter during flood response efforts near Columbus, Neb., March 14, 2019.
