

Solving a \$345B Healthcare Problem*

Reactive Medicine Today

Precision Medicine

PROBLEM Low value care

- · Reactive, Trials & errors system
- · No symptom, no treatment
- · Slow & expensive
- Not personnalized
- Patient travels to cares

SOLUTION High value care

- Preventative Healthcare
- Proactive Healthcare
- Personalized Healthcare
- Participatory Healthcare
- Cares come to patient

Digital Twin technology

Improving decisions since the 1960

- Prevention
- Early Detection
- Remote Monitoring
- Historical / longitudinal data
- Prediction & Forecasting

- Prognostic
- Simulation & Virtual testing
- Treatment assistances
- Risk assessment and mitigation
- Performance & healthspan optimization

BUSINESS MODEL BIOTWIN

Virtual twin ecosystem

Freemium model: always free

- No min requirement or engagement
- No sharing or selling of user data

BIOTWIN

Healthcare marketplace

Rev share & SAAS model

- Client is the health professional
- Regulations managed by BioTwin
